Our mission is to educate future leaders, innovators and entrepreneurs in electronic engineering, to pursue knowledge and advance state-of-the-art electronics, including hardware, software and design with electronics as the core, from materials, devices, circuits to systems, and the applications of such technology to meet societal and individual needs. In both teaching, learning and research, the Department is guided by the highest international standards.
Each year, a balanced set of courses will be offered from the above list. Students will also be able to take courses designed for research postgraduate students and from other programmes, including those offered by other engineering departments and the Business School, subject to prior approval.

These courses attempt to stimulate students' interest in and equip them with a greater command of emerging technologies such as artificial intelligence, big data analytics, future IOT applications, advancement of renewable energy, smart materials, etc.

Through interactive teaching and learning we guide our students to get better understanding of the fundamental concepts, to be able to identify and resolve problems, as also to be motivated to innovate new applications across different domains.

Students will engage with our research laboratories, working with research postgraduate students on a specific engineering project under the supervision of a faculty member and a dissertation is required at the end of the course.

Industrial lecture series and company visits will also be organized for our MSc students.

M.S.C. SCHOLARSHIPS

(a) Admission Scholarship
The following scholarships will be awarded to newly admitted students with exceptional academic standing.
(I) Department Admission Scholarship
(II) George Chung Scholarship for M.Sc. in Electronic Engineering
(III) Victor Ng Scholarship for M.Sc. in Electronic Engineering

(b) Graduation Scholarship
Top three graduating students of the MSc Programme in Electronic Engineering with an accumulated GPA of 3.5 or above attained in one year or have attained academic merit on completion of an outstanding MSc project dissertation will be awarded one of the following Graduation Scholarships.
(I) Department Graduation Scholarship
(II) Bright Future Charitable Foundation Scholarship for M.Sc. in Electronic Engineering
(III) Dr. Alan Lam Scholarship for M.Sc. in Electronic Engineering
THE PROGRAMME

- A student must take and pass 8 courses including a required dissertation in this programme with a GPA of 2.0 or above to graduate.
- A student will be discontinued from study if the student has a GPA below 1.0 or fails to have probation lifted after being put on academic probation for two consecutive terms of attendance.
- The length of study is usually 1 academic year in full-time mode and 2 academic years in part-time mode. Each year has 2 terms.
- All the lecturing courses are conducted in English. Each course usually consists of 36 lecture hours and a number of tutorials/hand-on training sessions over a period of 14 weeks.
- Subject to the approval of the Programme Directors concerned, students can take at most two courses from other M.Sc. Programmes within the Faculty of Engineering, or other courses as deemed appropriate.
- Full-time mode students are allowed to take other day time postgraduate courses offered by the Department of Electronic Engineering.

AWARD OF DEGREE
Graduates will receive a Master of Science Degree in Electronic Engineering from The Chinese University of Hong Kong if satisfy the credit unit and GPA requirements.

VENUE & FACILITIES
The classes will be held in weekday evenings in the University campus in Shatin. Through application, students can use various facilities and service in the Department of Electronic Engineering, and the University, e.g. computer laboratory and the University Library services.

ENTRY REQUIREMENTS
- A bachelor degree in Electrical Engineering, Electronic Engineering, Information Engineering and Computer Engineering may be admitted to this Programme.
- Students with a first degree in other fields such as Physics and Mechanical Engineering may also be considered provided that they have some experience and background in electronic engineering.
- The entry requirements of the Graduate School must also be satisfied.
- All students should fulfil the English Language Proficiency Requirement prescribed by Graduate School before they are admitted.

For more information, please visit the following websites:
MSc Programme: http://www.ee.cuhk.edu.hk/en-gb/curriculum/msc-programme/admission
Graduate School: https://www.gs.cuhk.edu.hk/admissions/admissions/requirements

TUITION FEE (PROVISIONAL)
Full Time mode: HK$150,000 for the whole programme (including 8 courses), HK$6,250 per unit.
Part Time mode: HK$150,000 for the whole programme (including 8 courses), HK$6,250 per unit.

APPLICATION PROCEDURES
Applications will be processed on a first-come-first-served basis, the majority of offers will be made in early rounds. The number of places is limited, interested applicants should consider early submission of their applications.

Full-time mode admission: September
Part-time mode admission: September & January (provisional)

APPLICATION DEADLINE*
1st round admission: 22 November 2019
2nd round admission: 20 December 2019
3rd round admission: 3 February 2020

*For the latest application deadline, please refer to MSc Programme’s webpage: http://www.ee.cuhk.edu.hk/en-gb/curriculum/msc-programme/admission.
CIRCUITS & SYSTEMS GROUP
- Microwave & Wireless Communications
- VLSI & ASIC
- Energy Conversion

MULTIMEDIA & SIGNAL PROCESSING GROUP
- Image and Video Processing
- Signal and Data Science

ROBOTICS, PERCEPTION & AI GROUP
- Robotics with Medical, Service, and Industrial Applications
- Perception, Sensors and Computer Vision
- AI, Pattern Recognition, and Human Machine Interaction
- Intelligent and Integrated Systems

SOLID STATE ELECTRONICS & PHOTONICS GROUP
- Photonics & Optical Communications
- Solid-State Electronics
Tan Zicong 譚梓聰
M.Sc. (EE) 2017
Game Testing & Software Engineer, NetEase, Inc.
2017 Department Graduation Scholarship Awardee

After received the MSc. Degree from Department of Electronic Engineering, CUHK. I found I had not just learned the knowledge in CUHK, I also learned a lot of ways to seek knowledge by myself, this is the most important knowledge than the knowledge from book in my whole life. The professor in the department of electronic engineering rather teach you the way how to learn than just tell you the knowledge itself. The faculty members are not just teach knowledge, they will tell us about some knowledge about life philosophy, give us some chance to visit some big companies or do some research. In this department, you can find out what you really like to do and help you find the way do it.

Yang Yuren 楊裕仁
M.Sc. (EE) 2016
Co-founder of the Shadow Express Electronic Commerce (Hong Kong) Co., Ltd.
Co-founder of the Olympics Technology Ltd

I received bachelor’s degree from the School of Electronic and Engineering of Nanjing University, and then went to the Chinese University of Hong Kong to pursue a M.Sc. degree in Electronic Engineering. During the period, I took part in the development of intelligent hardware called Ensa by using the knowledge and teacher’s guidance in the classroom. I founded the Olympic Science and Technology Co., Ltd. and obtained the offer of Hong Kong Science Park incubation. After graduation, he founded the Shadow Express Electronic Commerce (Hong Kong) Company Limited and participated in research and development of Shadowbox in order to make Hong Kong’s logistics industry more efficient and convenient.

During my master’s studies, I not only learned the most professional electronic knowledge of solid-state sensors and lighting systems, wearable bioelectronics, power management ICs, but also I get help from my teachers and classmates. In the Department of Electronic Engineering, the Chinese University of Hong Kong, your friends and teacher will be your life’s wealth.

Marco Ho 何震宇
M.Sc. (EE) 2009, Ph.D. (EE) 2012
Lecturer, Department of Information Engineering, CUHK

After I obtained my undergraduate degree in Canada, I returned to Hong Kong to work. When I decided to shift my focus from software programming to hardware engineering, I chose the M.Sc. programme offered by the Department of Electronic Engineering in the Chinese University of Hong Kong. Its curriculum encompasses the wide variety of advanced technologies, from optical communications to integrated circuit designs, from multimedia signal processing to solid-state fabrications. It provides me with multi-faucet aspects and interdisciplinary exposures. It was during this programme that I found my enthusiasm in power-management integrated circuits, and after I completed the M.Sc. programme, I stayed in the Department to pursue my Ph.D. degree.
CAREER

A degree of Master of Science in Electronic Engineering provides a solid foundation to launch your career locally or globally with excellent prospects in a wide range of technological sectors, which include: Data Communication & Network, Software Design & Development, Product Design, Data Science, Artificial Intelligence, Investment Bank, etc. Some of our graduates join the famous enterprises, like HUAWEI, Alibaba, SUNING, Deloitte, etc. The others pursue further studies in CUHK or other universities.

WHY CUHK EE?

► The Chinese University of Hong Kong
  (a) Ranked 44th among the world’s top 200 universities, according to QS World University Rankings 2016

► Department of Electronic Engineering
  (a) Ranked 20th among the world’s top 200 universities, according to QS World University Rankings by Subject 2016
  (b) Ranked No.1 in Hong Kong, according to QS World University Rankings by Subject 2016
  (c) 22 professors with 8 IEEE Fellows

► UK UGC Results of the Research Assessment Exercise 2014

Leading Research in Electronic Engineering in Hong Kong

电子工程学理学硕士
授课式硕士课程
Master of Science in Electronic Engineering

课程主任(程伯中教授)寄语
香港中文大学电子工程学系由「光纤之父」，已故诺贝尔物理奖获得者高锟教授创办，并逐步发展成为现在的中文大学工程学院。本系目前有22名教授，其中包括8名IEEE院士，在多项前沿科研领域中如光纤数字信号处理、图像与视频、微波与无线通信、超大规模集成电路和专用集成电路、能量转换、光电子与光通信技术、固态电子等等，均享有世界顶尖地位及极高的国际声誉。我们以建设世界一流电子工程学科为目标，培育国际优秀电子工程领域人才，并为香港的电子工程发展奠定坚实的基础。

课程简介
本课程包括但不限于：科技与工程管理、人工智能及大数据分析图像与视频处理、语音数字信号处理、光纤通信、无线通信、光电子学与光电器件、固态电子、VLSI集成电路等。全日制学生的修读期为1年，兼读制则为2年，每年有2个学期。整个课程共需修读18门课（共24学分），2020-21及以后入学的学生须包括一门必修的毕业论文。

课程理论与实践并重，极具挑战性，提升同学在不同电子工程范畴中解决问题的能力。培养多角度思维，启发跨领域的创新。

申请手续

课程奖学金—奖励求知，激发潜能
• 入学奖学金：本课程将颁发三个“入学奖学金”予本科成绩优秀的新生。
• 毕业奖学金：每年前三名成绩优异且GPA达到3.5或以上，或在理学硕士学位课程中取得优秀的学士或硕士的当届优秀毕业生，将可以获得毕业奖学金。

科研创新，作育人才
香港中文大学QS世界大学排名44（2016-17）
电子工程学系QS世界大学专业排名20，香港地区排名第1（2016-17）
